Kristin Williams Wins Alice Title

Kristin Williams has talked her way into a state job.

The 21-year-old girl from Colgate was announced as the judge's choice for Alice in Dairyland during a coronation Saturday night at the Brown County Veterans Memorial Arena.

Miss Williams, a senior at Wisconsin State University—Oshkosh, is now the official ambassador for the State Department of Agriculture and, for the next year, will be employed as Wisconsin's No. 1 saleslady.

RUNNERSUP CHOSEN

Chosen as second runnerup was Miss Barbara Ann Berg, 20, of Plain, a sophomore studying social work at Wisconsin State University, Eau Claire. First runnerup was Miss Beverly Stelzel, 20, of Dorchester, a sophomore in speech correction at the same school.

About 500 persons attended the banquet and coronation ceremony that featured Governors Warren Knowles of Wisconsin and George Romney of Michigan.

Miss Williams is a senior, majoring in secondary education at the Oshkosh school.

A total of 242 unmarried girls between the ages of 19 and 25 sought to represent one of the state's 14 districts in preliminary contests. Beginning last Thursday, finalists vied for the Alice crown in a job that, in addition to a salary of \$4,800 will provide a clothing and travel allowance.

The retiring Alice, Miss JoAnn Cupery of Markesan, is a registered nurse. While Kristin goes on to fulfill the duties of Wisconsin's first public relations agent, JoAnn will return to college for graduate studies in her field.

Milk Pricing Suit of P M P C Is Dismissed by Federal Judge

A suit challenging the U.S. Department of Agriculture's right to use a substitute factor in the federal formula for pricing milk on the Milwaukee market, was dismissed here this week by Federal Judge John Reynolds.

The suit, brought against USDA by Pure Milk Products Cooperative, Fond du Lac, Wis. charged that in the absence of a supply-demand adjuster, which was in the old Chicago milk order, and to which Milwaukee's pricing system was linked, the department did not have the authority to use a substitute factor.

Dismissal of the suit by Judge Reynolds, in effect sanctioned the use of the substitute.

The adjuster used the proportion of milk going into Class I use in Chicago as an indication of supply and demand — with 72 percent of the base figure. For each one percent above or below that figure, the price was changed by two cents a hundredweight.

On April 8, 1966, in anticipation of the demise of the Chicago order, the USDA ordered that since the adjuster had been minus 24 cents for five years, that that was the appropriate, equivalent price. PMPC's attorney, George St. Peter, contended that the price deductions should not have been made without holding a hearing on that point.

In a 15-page decision the judge said that because the Milwaukee milk marketing order provided a method for fixing milk prices, and the secretary (Freeman) had acted in accordance with the order in determining the price, the suit could not prevail on its merits and did not have the standing to sue.

The USDA used a substitute provision which said that if quotations were not available, the market administrator should use a price determined by the secretary to be equivalent.

* Subject to location differentials where applicable. In the case of members of approved cooperatives, these prices are subject to the deductions authorized by the associations. The prices listed do not include any premium payments which may be paid by handlers and which may bring actual payments in excess of the minimum requirements.
